

Dear Elected Officials,

I am contacting you today to voice my concern for the new gun legislation currently in discussion, specifically S.B 1076.

I do not support this bill. It is far too reaching and has too much room for interpretation. It does nothing to prevent violence or tragedies and only burdens law abiding gun owners with additional regulations and fees.

We should spend more efforts enforcing the current laws we have, and create stiffer penalties for criminals who illegally posses a firearm. This will punish the criminal, and not the law abiding citizen, who seems to be the target of most of the proposed legislation. Please reject S.B 1076.

Sincerely,

Kimberly Lupacchino
CT Resident
